

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

Claims 1-139. (Canceled)

140. (Previously presented) A method for making up eyelashes comprising applying to said eyelashes a mascara comprising:

- (i) at least one volatile solvent;
- (ii) at least one polymer chosen from polymers of following formula (I):

in which n denotes a number of amide units, such that the number of ester groups represents from 10% to 50% of the total number of ester and amide groups; R¹ is, in each case, independently an alkyl or alkenyl group having at least 4 carbon atoms; R² independently represents, in each case, a C₄ to C₄₂ hydrocarbonaceous group, provided that 50% of the R² groups represent a C₃₀ to C₄₂ hydrocarbonaceous group; R³ independently represents, in each case, an organic group provided with at least 2 carbon atoms, with hydrogen atoms and optionally with one or more oxygen or nitrogen

atoms; and R^4 independently represents, in each case, a hydrogen atom, a C_1 to C_{10} alkyl group or a direct bond to R^3 or another R^4 , so that the nitrogen atom to which both R^3 and R^4 are bonded forms part of a heterocyclic structure defined by R^4-N-R^3 , with at least 50% of the R^4 groups representing a hydrogen atom;

- (iii) water;
- (iv) at least one coloring agent; and
- (v) at least one preservative.

141. (Previously presented) The method for making up eyelashes according to claim 140, wherein said at least one volatile solvent is chosen from isododecane.

142. (Previously presented) The method for making up eyelashes according to claim 141, wherein said at least one polymer is chosen from ethylenediamine/stearyl dimer tallate copolymer.

143. (Previously presented) The method for making up eyelashes according to claim 142, wherein said mascara further comprises PVP.

144. (Previously presented) The method for making up eyelashes according to claim 140, wherein said mascara further comprises PVP.

145. (Previously presented) The method for making up eyelashes according to claim 140, wherein said mascara further comprises a liquid fatty phase structured by said at least one polymer.

146. (Previously presented) A method for making up eyelashes comprising applying to said eyelashes a mascara comprising:

- (i) at least one volatile solvent;
- (ii) at least one polymer chosen from ethylenediamine/stearyl dimer tallate copolymer;
- (iii) water;
- (iv) at least one coloring agent; and
- (v) at least one preservative.

147-153. (Canceled)
